

Uninsured Deeds

What is An Uninsured Deed?

An Uninsured Deed is a deed that has not been examined or insured by a title company.

Most common problems from Uninsured Deeds come from Quitclaim deeds between family members, especially husband and wife. When a person is added to title, it is a window of opportunity for matters against him/her to attach to the property.

Why Should it be of Concern to You When Taking a Listing?

- Is it a divorce situation?
- Was it signed in distress?
- Possible bankruptcy?

How can you spot an uninsured deed when you order a profile from Tigor Title and look at the deed?

- Look for accommodation stamp.
- No title company or title company title order number.
- No escrow number showing on document.
- No document stamp showing under the fee section.
- Handwritten document.
- Time recorded is not 8:00 am in the morning.
